RESISTANCE BAND SET AND
FUNCTIONAL SLEEVE**

MYOKORE BRANDED RUBBER BANDS

ALL LOGOS PRINTED ON THE RUBBER BANDS ARE LONGER LASTING DUE TO A PROPRIETARY PRINTING METHOD WHERE THE INK IS INJECTED INTO THE RUBBER MUCH LIKE A TATTOO ON SKIN.

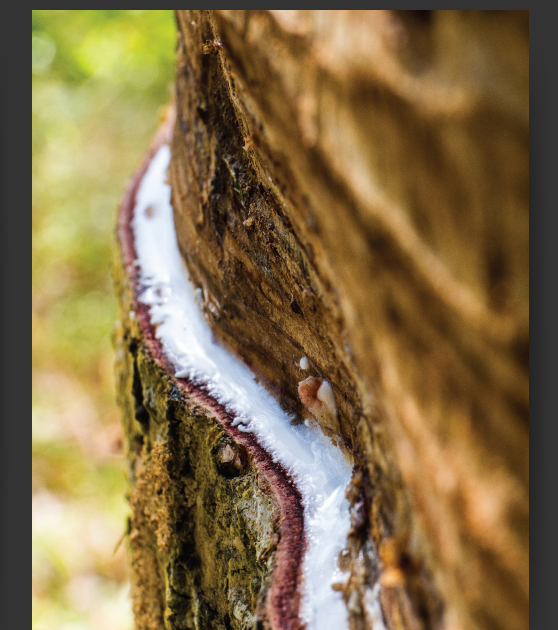

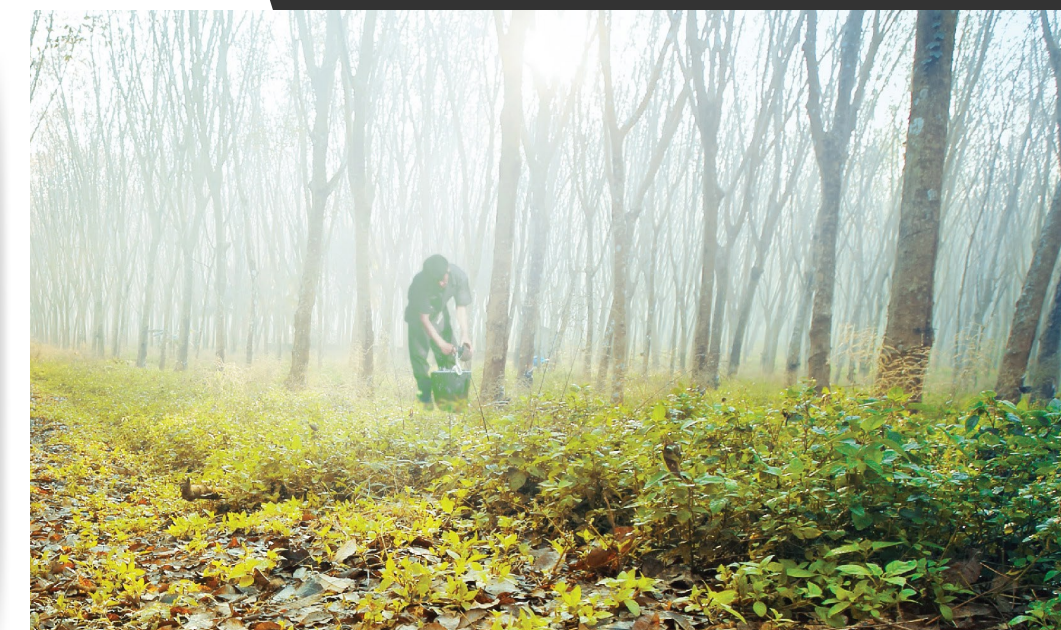

SUSTAINABILITY & RESPONSIBLE SOURCING

ALL RUBBER BANDS ARE CONSTRUCTED WITH A LAYERED, LOOPED, AND NATURAL RUBBER FROM A SOUTHEAST ASIAN FARM DESIGNED TO BE SHEATHED WITHIN OUR PROTECTIVE NYLON SLEEVES FOR OPTIMAL PERFORMANCE.

THE LAYERING PROCESS INCREASES BAND LONGEVITY AND STRENGTH BY HARVESTING RUBBER THROUGH A DRIP PROCESS FROM RUBBER TREES AND THEN USING A SINGLE PIECE, I.E. RUBBER SHEET THAT IS LOOPED OVER ITSELF ON A SPIN WHEEL, TREATED, AND BONDED WITH AN ADHESIVE MAKING THE LATTICE STRUCTURE OF THE MOLECULES TIGHTLY WOVEN.
